

# ETCHer SPOTLIGHT

## Academic Background:

In undergrad I studied French Language, and after graduating I was lucky enough to find a position in Marketing. After 7 years in the industry, I was in need of a change and decided to pursue an MBA from McGill University.

## Why did you choose ETCH to do your internship at?

I'm very passionate about sustainability and I was really intrigued by ETCH's work and expertise in sustainable procurement, but it was meeting other ETCHers that really sold me on ETCH. Everyone I met was so incredibly open and friendly, and I loved the emphasis they had on people first!

## How would you describe your internship experience?

My main responsibility has been helping to expand the sustainable procurement database, but I've also gotten to support with marketing and business development projects as well. I feel my work is having an impact! From day 1 I have felt like a full member of the team, and I know my work is helping to grow ETCH.

## What surprised you the most about your growth at ETCH?

How much trust and support I've gotten from the ETCH team. I don't think I've ever experienced working for an organization that is so invested in helping their people learn and grow.

## Anna's Favourites:

Cuddling my cat

Rock Climbing

Campfires

Ancient  
bristlecone pines

Books

Montreal Summers

Time with friends & family
